- STORYBOOK & POSTMAN

Languages

- ENGLISH PRE-INTERMEDIATE (IN PROGRESS)
  DUOLINGO

Experience

Front-end developer

My Projects | 2021 - Present

- **Tap Table (Dec2022 - present)**
  Development of an online service for booking tables in restaurants and cafes.
  Used technologies: React-native/Redux-toolkit/React navigation. For platform: **android**, **ios**.

- **Nomo Academy (Dec 2023 - present)**
  Used technologies: React-native/Redux-toolkit/React navigation. For platform: android, ios.

- **Dotbig (Nov 2022 - Feb 2023)**
  Project was created with the aim of developing a Minimum Viable Product (MVP) to validate the idea and assess the product's potential in the market.
  Used technologies: React-native/Redux-toolkit/React navigation.

- **React-native app (Sep 2022 - Sep 2022)**
  In this project I successfully used firebase_remote_config to add a remote link to webview. This set of technologies deals with traffic arbitrage.

- **Shop (Apr 2022 - May 2022)**
  Used tehnologies: React / Redux / React- router-domV6 / Redux-thunk / GraphQL. The task was performed with using GraphQL(apollo client).

I'm developing further. I would like to become a Full Stack developer.
